Sumptuous and beautiful as are most of the garments displayed nowadays, the principal temptation which causes poor women to sigh for the riches of the East, it would take a fortune of similar dimensions to buy them. The muffs and stoles shown here seem the

acme of beauty and elegance. The center portion of muffs and stoles is composed of innumerable pieces of ermine mitted together, and around these in both articles is a border of the ermine, showing the little feet and tails. A fringe of these tails edges the muffs and ends of the stoles.
